PROFESSIONAL SUMMARY

Bilingual professional who transforms messy workflows into efficient, data-driven systems. 3+ years blending Python, JavaScript, low-code automation, and prompt-engineering to cut manual effort, extract insights, and elevate customer experience. Seeking a role of puzzles and challenges where I can rapidly prototype and deploy solutions for a company to drive measurable, hard impacts.

CORE SKILLS

Automation & Scripting: Python, JavaScript/TypeScript, AutoHotkey, Zapier, Make.

Prompt Engineering: LLM-powered data extraction, conversation design, safety guardrails.

Data & Ops: SQL basics, Pandas, API integration, ATS/CRM management.

Project Management: Agile sprints, documentation, stakeholder demos.

Languages: English (native), Spanish (fluent).

TECHNICAL STACK

Languages/Frameworks: Python, JavaScript (ES6+), Astro, Bash.

AI/ML Tooling: OpenAI API, LangChain, Azure AI Studio, Google Vertex AI.

Dev Tools: Git/GitHub, VS Code, Overleaf, Postman, Linux CLI.

Productivity: Notion, ClickUp, Microsoft 365, Google Workspace.

PROFESSIONAL EXPERIENCE

Automation & Recruitment Specialist   AppleOne Employment Services – Salt Lake City, UT (Remote)
Aug 2023 – Feb 2025
- Engineered Python automations that sliced candidate-sourcing time, adding $120k annual gross margin.
- Scraped 30+ job boards / LinkedIn APIs to create a market-intelligence dashboard for salary benchmarking.
- Implemented NLP résumé-parser increasing ATS hit-rate from 68%→92%; ranked #1 of 6 consultants for monthly placements.

Data & Technical Support Coordinator   Western States Calibration – Salt Lake City, UT
Mar 2022 – Jun 2023
- Authored SOPs & Python scripts that reduced calibration-report turnaround by an estimated 30%.
- Maintained 50k+ calibration records with zero compliance findings in ISO 9001 audit.

Independent Automation Developer   Freelance – Remote
Mar 2021 – Feb 2022
- Built and sold AutoHotkey bots for Old School RuneScape; peak monthly revenue $2k while also in school.
- Ran Discord support channel (100+ members) delivering sub-1 hr response times.

SELECTED PROJECTS

Promptimizer – Universal Prompt-Testing CLI   *2025*
- CLI + web UI that auto-generates prompt variants, runs batch evals via an OpenAI-compatible API, and ranks outputs; starred on GitHub **20+** times.
- Built in JavaScript for browser use; modular design adopted by an indie SaaS team for in-house testing.

FreeSearch – AI-Augmented Research Engine   *2024*
- Expands user queries into multi-angle sub-queries, fetches results concurrently, and synthesizes a Markdown brief.
- Cut personal competitive-intel time by 70%; Stack: Python (Flask), DuckDuckGo search lib, OpenAI-compatible LLM for re-ranking.

CopilotWebChatExporter – Tampermonkey Add-On   *2024*
- One-click export of Microsoft Copilot chats to Markdown; 100+ installs, 4.9 stars on GreasyFork.

EDUCATION & CERTIFICATIONS

Johns Hopkins University   Baltimore, MD
Writing Seminars (Non-Degree)   *Sep 2019 – May 2021*
Certifications:
- Prompt Engineering for ChatGPT (DeepLearning.AI), Generative AI Fundamentals (Google), Azure AI-900 (Microsoft)

ADDITIONAL INFORMATION

U.S. citizen; willing to relocate. Volunteer mentor, *Operation Education Latino Fund* — taught courses on English-language practical skills.
